Click here to choose which calendars are displayed (it may be best to turn off the Events calendar if there are too many events to fit in a specific day's box)

Click here to add these calendars to your Google Calendar account

- **Benefits of importing this calendar into your Google Calendar account**
 - o You can overlay a personal calendar to add your own events and appointments
 - o You can create email or text message reminders for important events
 - o You can sync it with various devices including iPhones, Crackberrys, Windows Mobile
 - o It will still be constantly updated as events are added or changed
 - o It is fully integrated with Gmail

- Any questions e-mail me at John.Pham@utoledo.edu
